

ASTRONAUTS BOYLE'S LAW CREW PATCHES DIVERS NASA HISTORY PHYSICS TEAMWORK UNDERWATER TRAINING  
 ASTRONAUT BOYLE'S LAW CREW PATCHES DIVERS NASA HISTORY PHYSICS TEAMWORK UNDERWATER TRAINING

An E3 DVD series of programs that explores the mysteries, experiences the struggles, and expands the world around you. Ball State University, in partnership with educational institutions, brings you a unique encounter with national experts and the world's treasures.

In this E3 experience, go behind-the-scenes at the NASA Johnson Space Center Neutral Buoyancy Lab. NASA astronauts and specialists are your guides as you explore the science behind the astronauts' training program. Expand your world as children question the experts about their missions in space.

**FEATURES**

**EXPLORE**

**Fun Zone** - Explore science in motion, with activities that use the lessons presented in the Neutral Buoyancy Lab.

**Teaching Moments** - This DVD-ROM features teaching materials developed by educators, for educators. Printable files offer activities and educational material for Grade Levels 5 through 9.

**EXPERIENCE**

**The Underwater World of Space: Journey to the Neutral Buoyancy Lab** - Watch astronauts as they train underwater for missions in space...view historic NASA footage and bonus videos.

**EXPAND**

**Fun Facts** - Bonus Video - Astronauts tell you what it is really like in space.

**Gallery** - Tour Space Center Houston. Visit the Astronauts Gallery, an exhibit of the world's best collection of spacesuits
